

Peers and health
care takers
working together

Community
based testing
project

Community
based testing—
Make room for
the peers

We need the
doctors and
nurses

- **Test and scan**
- **Link to care**
- **Provide information about hep C treatment.**

We need the
peer persons

- **We can provide access to the community**
- **Social and emotional support during test events**
- **Make sure people get tested and stay long enough to get their results**
- **Linkages to care and community resources**
- **Ongoing support, extended over time**

Peers and health
care takers
complement each
other!
