

# HEPATITIS C IN PRIMARY CARE AND DRUG AND ALCOHOL SETTINGS

Join us for this free online training to support your role in eliminating hepatitis C!

People who inject drugs (PWID) represent approximately 90% of newly acquired hepatitis C (HCV) infections. Clinicians working with PWID play an important role in reducing HCV-related morbidity and mortality through early diagnosis and treatment. With the advent of well-tolerated, short-course direct acting antiviral (DAA) HCV regimens with cure rates >95%, there is an opportunity to vastly improve the health outcomes of people living with HCV.

This course is designed for pharmacists and staff at community-based organisations participating in the LiveRx Education Program and other clinical staff working with people who inject drugs. Through self-directed online learning and an interactive online workshop, delivered by local experts, participants will gain the skills to confidently manage hepatitis C in their setting.

At the conclusion of this program, participants will be able to:

- Describe the risk factors for HCV infection enabling effective screening and prevention education
- Demonstrate competence conducting and interpreting tests to diagnose HCV
- Recognise risk factors, clinical signs, symptoms and complications of liver disease
- Demonstrate understanding of Direct Acting Antiviral (DAA) therapy for the treatment of HCV and competence in selecting appropriate therapy
- Describe recommended on-treatment monitoring and post-treatment follow up protocols

This workshop has been adapted by the LiveRx research leadership team in collaboration with INHSU.

**Date:** Saturday, 11 June 2022

**Time:** 9.00am - 12.00pm (MDT)

**Location:** Online via Zoom

**Cost:** The course is free. Places are limited - registration is essential.

**Facilitators:**

Dr Mark Swain, MD, MSc, FRCPC, FAASLD, FCAHS  
Cal Wenzel Family Foundation Chair in Hepatology,  
Professor of Medicine, University of Calgary; Hepatologist,  
Calgary Zone, Alberta Health Services

Klaudia Zabrzanski, BSc.Pharm, RPh APA  
ACE Program Lead, Clinical Pharmacist  
Mint Health + Drugs

Colter Young, BSc. Pharm, RPh, APA  
Associate Owner and Pharmacist  
Shoppers Drug Mart #3034 | #6029

**Registration link:** <https://bit.ly/3FgEg0o>

**Register before:** Wednesday, 8 June 2022
